

“Indigo One” Activation Process

Please read this, it’s not the usual yada yada

Thank you for purchasing an **Indigo One** - the leading aircraft tracking and communication system.

As you are aware, included at no charge in the purchase of the **Indigo One**, is a one-month software license for your aircraft on the **IndigoTrack** system, as well a 500-unit airtime package.

IMPORTANT
When to activate your unit
The unit needs to be activated before your maintenance team will be able to test the installation, but in doing so, it will also activate the one-month free software license. Therefore the best time to activate is during the installation process.

In order to activate your unit, the one month software license and the 500-unit airtime package, you will need to complete an **Activation Process**, which is on the IndigoSat website. To proceed, navigate to the following link using your web browser:

<http://www.indigosat.com/activate.aspx>

Step One - Customer Information

If you are an **existing customer** (you already have a login to the system), change the selection to “Existing Customer” - you will be required to log into the web site’s secure area before proceeding.

If you are a **new customer**, please complete the fields provided to continue. Please ensure that a valid email address is entered, as this will be required to complete the activation process.

Customer Name	Your company name or personal name
Base Location	If required, a base location of your operation
Primary Contact	The name of the primary contact
Logon	A preferred logon for the IndigoTrack software
e-Mail Address	A valid email address for the activation process

Step Two - Aircraft Information

Complete the fields as follows:

Serial Number	Located on the Activation Pack envelope.eg. 001016
Position Transmission Frequency	This is the timeframe between position reports from the unit. The default is 6 minutes, and valid values are from 1 minute to 30 minutes.
Registration	The tail-number of the aircraft that the unit is being installed in.
Aircraft Type	If you can't locate the type of aircraft in the list, please select <New> and enter the aircraft type.
Aircraft Serial Number	Optional, the manufacturer's serial number of the aircraft.
Callsign	Optional, a callsign to identify the aircraft
Operator	Optional, the name of the operator of the aircraft
Area of Operation	Optional, the main theatre of operation

Step Three - Information Confirmation

Please check the information provided on this page - if necessary, click on "Back" to correct any information. If you are satisfied that all the information is correct, click on "Generate Email" to complete the web site section of the activation process.

Step Four - Email Activation

The web site process will generate an email to the address you provided - when that email arrives, click on the link contained in the message body to complete the activation process.

Your Indigo One unit is now activated and ready for configuration and operation.

Please don't hesitate to contact us should you require any assistance with the activation of your unit, or wish to get additional information in the future.
